IMPOSITION Citizens of Bangor & vicinity Take Notice.

THERE is hardly an instance on record where a man of any enterprise has commenced in business and with great exertion and expense has become universally known *but some one whose intellect being so obtuse that he cannot invent an original idea of his own, has attempted to impose upon the public by adopting the same name, or raising a sign of similar character.* This mode of imposition deserves the severest reprimand from the mouth of every honest man.

I have been led to these remarks by noticing numerous advertisements in Bangor papers headed

Main Pillar of OAK HALL.

I would most respectfully inform the citizens of Bangor and vicinity that *I have no branch whatever of my establishment nor agency in any part of the United States.* The above *advertiser* also states that he *has withdrawn himself from OAK HALL, Boston. To that I can only say that my servant driver of Oak Hall Express, in Boston and vicinity,* has withdrawn himself and I have substituted a *Gentleman of Color* in his place and with *his new livery suit and beautiful steed is the admiration of all beholders.*

Issued this day from Oak Hall, City of Boston, 22d of July, 1844.

WRIGHT'S Indian Vegetable Pills, OR INDIAN PURGATIVE.

THOUGH many medicines have been before the public for a much longer period than *Wright's Indian Vegetable Pills*, yet none stands now in higher repute or has more rapidly attained a firm hold upon popular estimation The thousands that have used them throughout the length and breadth of the Republic, all bear cheerful testimony to their thorough efficacy and mild operation when employed in the most distressing disorders which flesh is heir to To those however who have not used them, who are suffering in the incipient or advanced stages of disease, and who are looking round for weapons wherewith to combat the Destroyer—intelligent inquirers who must be satisfied with the theory and principle of a course of medical treatment, before they commence, it becomes necessary to make a few preliminary remarks on this *invaluable medicine.*

The theory of disease on which WRIGHT'S INDIAN VEGETABLE PILLS are founded is this, viz That there is only one primary cause of all the disorders which afflict the human family, and that is corrupt humors—or, in other words, Impurity of Blood This principle is now so generally admitted, that it may in fact be said to be sustained by an universality of opinion—the few dissenters constituting but a very feeble minority It is useless, therefore, to discuss the soundness of this theory in this place and connection

The ONE DISEASE PRINCIPLE being admitted, the mode of attack professed by all practitioners becomes the same, viz *Purgation* But many of the so called specifics now before the public produce only one form of purgation; they are either Sudorific, Cathartic, Diuretic or Expectorant.—Wright's Indian Vegetable Pills combine all these properties, and are therefore calculated to attack the elements of disease at all points, and by a harmonious and combined operation to expel it radically from the system Their effect is almost magical and is no less astonishing for its mildness than its efficacy Both sexes and all ages may employ them according to the directions without fear, for while they are certain to cure ALL DISEASES that are remediable, they *never* inflict an *injury* upon the system

The ORIGIN of this invaluable medicine entitles it to unlimited confidence and respect The nearer we approach to nature, in our researches after truth both in science and art, the more complete will be our success in both Look at the uniform physical condition of the Indian Tribes of this continent, whether exposed to the frosts and storms of the North, or to the rain beat, and pestilential miasma of Southern climate. Houseless, unprotected, exposed to every atmospheric change, every extreme of the seasons dwelling at times in morasses and by the margins of unhealthy pools and swamps—they yet enjoy an almost total immunity from disease, while the white man, who enjoys all the comforts of civilization, with its attendant arts, is as much inferior to the savage in physical vigor, as he is superior to him in intellectual acquisitions.—How does this happen? Simply because, bereft of the light of science, he relies upon that divine instinct which impels him to select from the produce of the field and forest those remedies which Nature and Nature's God has bountifully provided for the cure of sufferings, and the mitigation and cure of disease—sowing them broadcast on every hill and valley Let those who impiously arraign the goodness of Divine Providence and point with a sneer to the multitude of invalids who lie groaning upon beds of sickness, turn from the false lights of man and study the secrets of nature and they will adore that mercy which has so bountifully provided a cure for every wound—*a remedy for all who seek one*

These Pills as we before remarked, operate by purgation—by thoroughly cleansing the entire system from all impurities, and making the invalid in the homely but expressive phrase 'a new man'—whether the disease is INCIPIENT CONSUMPTION which insidiously attacks the Lungs, producing that dry, hacking cough so painful to the friends ear, or Cutaneous showing itself upon the skin in eruptions or blotches, whether the Kidneys or the Bowels be affected—*Wright's Indian Vegetable Pills* are equally efficacious in warding off danger Their expectorant cathartic, sudorific and diuretic qualities enable them to take hold of each form of disease

The *perfect safety* of the medicine is another all important quality and one which has contributed more than any thing else to its extension and popularity

In a word this medicine commends itself strongly to the patronage of the public, and its use bids fair to become, before long ALMOST UNIVERSAL

CAUTION

The citizens of New England are respectfully informed that, in consequence of the great popularity which Wright's Indian Vegetable Pills have earned, by their astonishing goodness a gang of Counterfeiters are now industriously engaged in palming on the unsuspecting a VALUELESS and perhaps dangerous medicine, under the name of Indian Vegetable Pills

BEWARE OF A L NORCROSS, of Halowell Maine, who is selling COUNTERFEIT PILLS

This is to inform the public that the genuine medicine has on the boxes—

"WRIGHT'S INDIAN VEGETABLE PILLS."

OF THE NORTH AMERICAN COLLEGE OF HEALTH

And also, around the border of the label will be found in small type—

Entered according to Act of Congress in the year 1840, by William Wright in the Clerk's Office of the District Court of the Eastern District of Pennsylvania"

The public will also remember, that all who sell the genuine Indian Vegetable Pills are provided with a certificate of Agency signed by

WILLIAM WRIGHT, *Vice President*

Of the North American College of Health

And that pedlars are never in any case allowed to sell the genuine medicine All traveling Agents will be provided with a certificate of agency as above described, and those who cannot show one will be known as base imposters

NEW PRINCIPLES OF PURGATION. CORNARO'S Purifying and Preserving PILLS.

THE American public has for a long time been the victims of a false and dangerous system of medicine founded on the practice of CONTINUED AND UNRELIEVED PURGATION The evils of this old system are of the most wide spread and alarming character They have reached through every vein and artery of our nation—In every city, and village, and hamlet—in every State and Territory of our vast Republic will be found those who have suffered, or who are still suffering from the injurious effects of this old system of whose practical utility the disease, decay and utter prostration of those who test it furnish the most condemning proofs

COMMON DRASTIC PURGATION

Scours out the system by the most improper and violent means, and then leave it weak low, feeble, debilitated, to regain its strength as best it may.—Sometimes the consequences of this old Purgative practice are worse than mere Debility Inflammation of the Bowels, Slow Fever, Bloody Piles and other horrible disorders are produced, simply from the want of some enlivening and preserving power in the medicine employed Sometimes the digestive organs are deeply and permanently injured by this coarse and unphilosophical practice, leaving the patient AN INVALID FOR LIFE

The alarming evils and absurdities of the old system of Purgation, have led to the introduction of a new Life giving Medicine called CORNARO'S PURIFYING AND PRESERVING PILLS, which are established on this new and only true principle of Purgation, viz

NO PURGATION WITHOUT IMMEDIATE RESTORATION

The use of this admirable Purgative remedy strikes a death blow to that abominable system which by continually evacuating the bowels without any conservative or saving power, so dreadfully and fearfully prostrates and injures the unhappy patient These Purifying and Preserving Pills are believed to constitute the perfection of medicine being a UNIVERSAL VEGETABLE PURGATIVE containing two great remedies combined viz One remedy to PURIFY FROM CORRUPTION, and another to PRESERVE FROM RUIN RY AND DECAY

And for the purpose of attaining the highest degree of purity in the preparation of these Pills Dr Bradlee has, at a vast expenditure of time and money, invented and patented at Washington a chemical and philosophical apparatus for distilling and refining vegetable extracts called

THE SEVEN FOLD FURNACE,

A powerful and novel machine—having Seven Fires and Seven Alembics, with distilling condensing and evaporating fixtures of a new and ingenious contrivance, capable of obtaining more than seven times the ordinary purity of any vegetable extract heretofore used in compounding medicine The Balsamic and Preserving power of the Pills is due, by this invention, highly purified and refined and so mingled with the operative medicine that repairs all the injuries created by Purgation as soon as they are caused and strongly fortifies the system against future corruption and decay

Let the public be no longer deceived by the advertisements of the "one remedy" doctors, who show their entire ignorance of the organic laws of the human system by supposing that a medicine which purges merely without renovating or preserving can be a perfect remedy. For it is a fixed and immutable law of our being that there should be no more Purgation without immediate Restoration and health follows, and is proved to demonstration that all Purgatives which DO NOT possess a saving and preserving power, are injurious, and injurious only, and possess NOT ONE REDEEMING QUALITY

The whole theory of common drastic Purgation is based upon unnatural and absurd laws and they who follow it fall victims to their own folly and to the repent their temerity.

BEWARE OF UNRELIEVED PURGATION Purge and Preserve, or do not attempt to Purge at all

The celebrated PURIFYING AND PRESERVING PILLS purify the body from corruption and preserve it from injury and decay in a ... operation They are a Universal Vegetable Purgative, of sovereign use in all diseases of the human system in which purgation is required, particularly in Jaundice Indigestion, Dyspepsia, Eruptions of the Skin, Scrofula, Piles, Costiveness, Bilious Disorders Liver Complaint Fevers, Nervous Disorders Gravel Weakness, Cholic, Dysentary, Worms Gout Rheumatism, Female Complaints, Depression of Spirits Debility of System, Fits &c, &c

IT HAS BEEN ESTIMATED THAT UPWARDS OF **200,000 Persons** Visited that splendid Edifice **OAK HALL,** SINCE ITS ERECTION, AND THAT **150,000** HAVE BEEN CLOTHED AT THIS POPULAR **Tailoring Establishment.**

THE reasons why Clothing can be sold at this Establishment so much LOWER than at any other places are these

First—Our retail sales are about ten times the amount of any other establishment in Boston

Second—We do a sole Cash Business, consequently the purchaser does not have to pay for the defaulting debtor's clothes, and all the genteel class of trade that have been in the habit of ordering their clothes up town, and then bill sent once or twice a year have found that they can make a SAVING OF ABOUT ONE HALF, by cash down at OAK HALL and can get a garment made in as good style, or a little better

If I were to judge by some samples worn which sit upon the human form divine as though tailors journeymen had made them, AND NOT MADE THEM WELL, so that with all this immense trade of Custom Work, and a large quantity sold daily ready-made, I am enabled to sell at

5 Salesmen,
1 Express and Driver,
5 Runners,
30 Journeymen expressly for our nice custom work and the astonishing number of
400 Operatives, on thin work, adapted for Spring and Summer

Wholesale dealers will find at this establishment every description of

Ready-Made Clothing, IN ANY QUANTITY

Gentlemen will recollect we ask no more at retail and that we have an endless variety of

RICH PIECE GOODS, ALWAYS ON HAND,

which will be made to measure in that style of elegance for which this establishment has become so celebrated

'Tis not to a town, or city, or a state,
Or a nation, that we our addresses confine,
All our plans are mature and our efforts are great
O'er all climes of the earth without rival to shine

To all nations we speak for all nations we toil!
And we look for support in this glorious strife,
We resolve that no obstacle ever shall foil
The grand aim of our heart, while we linger in life

We discard all the snares and the frauds of the trade
We lift up the standard of spotless reform,
And we trust that so long as that standard's displayed
The smile of the world will defend from the storm.

We repose in the public a confidence strong,
And believe that they will not neglect our endeavor,
The success we have met has encouraged us long
And we thankful assure them 'we'll merit it ever.'

F BROWN'S Sarsaparilla and Tomato Bitters.

THIS is no quack nostrum, it is prepared from the best materials, and the receipt has been examined and approved by many of the first Physicians in the United States

The true means of preserving the Health and Strength is to purify the blood and correct the unhealthy state of the bowels For this purpose we recommend the Sarsaparilla and Tomato Bitters.

The component ingredient of these bitters is no secret They are composed of a very strong preparation of the celebrated extract of Spanish Sarsaparilla and the extract of Tomatoes, with the addition of some of the most popular vegetable medicines the country affords

This is the first time the medical virtues of SARSAPARILLA and TOMATOES have been combined and the result has met the most sanguine expectations of the medical profession The whole vegetable kingdom does not furnish two substances so admirably adapted to purify, nourish and invigorate the human system These bitters have all the effect of the most powerful purgatives when used in sufficient quantity, and yet are so mild in their operation that they may be given to persons in the most delicate health with perfect safety They are also very agreeable to the taste

These excellent bitters will be found a certain cure in all cases of Indigestion or Dyspepsia, Jaundice, Loss of Appetite, General Debility, Faintness and Sinking of the Stomach Lowness of spirits Costiveness, Determination of Blood to the Head, Pain in the Loins and side Diarrhea, weakness, dizziness, cutaneous eruptions on the face and neck, hectic fever, night sweats nervous and sick headache acidity of stomach, bilious affections piles costiveness and in all diseases caused by impurity of the blood, the debility of the system or the unhealthy state of the stomach and bowels

They are also exceedingly efficacious in restoring constitutions broken down by sedentary employments, and have been extensively used by clergymen, editors, printers, clerks seamstresses, and numerous others whose health had been injured by confinement and close application, with the happiest results They restore the action of the stomach, increase the quantity of the blood, and impart to the wan and emaciated eyes of the invalid the vigor and glow of rude health

These bitters are warranted to be a purely Vegetable compound and mark this, they can never do the least injury in any case whatever

They are kept by many persons as a Family Medicine and have been given to the youngest children with excellent effect

Brown's Sarsaparilla and Tomato Bitters are sold wholesale and retail by F BROWN the Proprietor No 68 Washington st Boston, and by the Druggists generally in the city and country towns.

POLITICAL.

Mr. Benton's Speech at Boonsville.

Mr Benton is really winning distinction by his powerful invectives against the annexation schemes of the ultra Southern politicians

The speech, of which we copy a large portion to day, was made, at home, among his own constituents

In his speeches in the Senate, on the subject, Mr Benton exposed the Presidential intrigues, and projects of treason and disunion which were involved in the Calhoun treaty At Boonsville, he exposes, with equal power, and with greater positiveness as to facts, the stock jobbing and land speculating cupidity which has stirred up all the Texas fury, that the country has witnessed for the last two or three years

It scarcely needs a single remark, to show that all of Mr Benton's positions bear directly, as many of them certainly were by him designed to bear, not only against the Tyler Calhoun project but also against all the annexation schemes of the present Polk party Two or three facts show the relations of these matters

None deny that Calhoun and Tyler intended by their treaty device, to operate upon the Baltimore Convention All agree that the ultra Southern Calhoun politicians defeated Mr Van Buren at that Convention, expressly because he was not like Mr Calhoun and Mr Polk, an *immediate* annexationist All the annexation ideas entertained by the opposers of Mr Van Buren, were and are of the Calhoun stamp, and look only to carry out South Carolina notions and objects Senator Walker, the Congressional leader and pamphleteer on Texas, the ardent advocate of the Treaty, was foremost at Baltimore among the intriguers to defeat Van Buren Mr Polk had declared himself an immediate annexationist, with utter regard to consequences in the exact spirit, and almost the exact words of Calhoun's despatches Mr Dallas was the confident ... convert of Senator Walker To crown all, South Carolina, which had disdained even to send a delegate to the Convention, when it was thought likely that Van Buren would be nominated, as soon as the two thirds rule, and a three day fight had wrought out the selection of Polk—a man after their own heart—then pronounced, in the persons of Elmore and Pickens, her approval of the new candidate thus smuggled upon the party.

Every thing therefore, so powerfully urged by Mr Benton, against the Calhounism of the Texas treaty, bears with equal force against the same intent and design now pursued under the Presidential nomination of Polk and Dallas The Tyler treaty is dead, killed by Mr Benton himself,—but he means also to kill the *Polk treaty* which the same party would soon bring forward, if they could get the power. The same disunionists, traitors and partisans, the same land speculators and stock jobbers who supported the Tyler treaty, are now gloating upon the ... of Polk, Mr Benton has warned the country against them all, and against all their designs. His speech is one of the most effective campaign documents that the canvass has yet produced It has made a powerful impression in Virginia, and in other States. It should be read by every Whig and every ... Texas

It is true, that in two or three instances and in the excitement of this very speech, Mr Benton has spoken with ... appro... of Messrs Polk and Dallas personally But all his arguments and tendencies are ... against their political position, as will be seen

Portland Advertiser

After a brief reference to the nominations, and an expression of his opinion that the Presidential candidate of 1848 should be taken *from the North*, with some remarks contrasting his own Texas bill, with Tyler treaty, Mr Benton proceeds as follows —

'Disunion was a primary object of the treaty, and intrigue for the Presidency was its secondary object; land speculation and stock jobbing were auxiliary objects, and the four objects together brought it forward at the time and in the manner in which it came forward just forty days before the Baltimore Convention and at the exact moment to mix with the Presidential election and to make discussion, and discord between the North and the South Mr B said he meant this for the original movers and negotiators of the treaty and not for those who supported the treaty without participating in the views of the makers He had in various speeches exposed the disunion scheme and the intrigue of the Presidency, he had not shown the part which land speculation and stock jobbing acted in concocting the treaty and pressing its ratification He had not noticed this part but it was a conspicuous one, and was seen by every body in Washington The city was a buzzard roost the Presidential mansion and Department of State were buzzard roosts—all filled and polluted by the foul and voracious birds in the shape of land speculators and stock jobbers, who saw their prey in the treaty and spared no efforts to secure it Their own work was to support the treaty and its friends—to assail its opponents—to abuse the Senators who were against it—to vilify them and lie upon them both in speech and in writing—and, to establish a committee still setting in Washington to promote and protect their interests The treaty assumed ten millions of debt and confirmed all the land claims under the laws of Texas The treaty correspondence claimed two hundred millions of acres of land in Texas, of which two thirds were represented as vacant and claimed as a fund, out of which the debt assumed was to be paid Vain and impotent attempt at deception! Open and fraudulent attempt to assume a bubble debt for the benefit of stock jobbers without any adequate consideration either to Texas or the United States! Texas in all its proper extent—in its whole length and breadth, from the Sabine to the west of the Nueces and from the Gulf of Mexico and the Red river—contains but 155 000 square miles, equal to 99 millions of acres and to *get the remainder of the quantity of 200 millions of acres they have to count the wild country and the dominion of the Camanche Indians and the left bank of the Rio Grande from head to mouth all of which is under Mexican dominion and agreed* part of which has been *settled and* ... *hand ed you* It is no secret that Texas possessing vacant land It there is no vacant land it is because it is not worth having Texas itself has been settled at San Antonio, Nacogdoches and other places above one hundred years, and has been under the dominion of three different Governments each of which has been granting away its lands and that not by 10 acre and 60 acre tracts but by leagues and parallels of latitude and longitude, and by hundreds of thousands and millions of acres at a time The King's Government made grants there from 1750 to 1820, then the States of Coahuila and Texas, united as one state made grants from 1820 to 1835, when the Texian revolution broke out, and since then Texas has been granting by wholesale and retail, having a General Land Office at the seat of Government, and a ... local ... one in every county all employed in granting land, and that to the Anglo Saxon race, whose avidity for land is insatiable.—After all this what vacant land can there be in Texas? Vacant ... worth having ... that the assuming of her debt by the treaty was gratuitous and without consideration And what a debt Created upon scrip and certificates at every imaginable degree of depreciation, and now held by jobbers most of whom ... *scrip, where it bore six per cent* ... of one hundred cents *on the dollar* the day the treaty was ratified and where it bore ten per cent interest as three millions of it did would have been worth two hundred cents in the dollar on the day of the ratification of the treaty—And all this to go to the free ... not even of Texas but to speculators, and this while the United States refuse and rightfully refuse to assume the debts of their own States—These scripholders were among the most furious treaty men at Washington and cannot bear the idea of having their scrip scaled as the continental bills of the American Revolution (issued under the ... circumstances) were *scaled* so as to give them back their outlay and interest but they want them redeemed as the soldiers certificates were in the year 1791 not for the benefit of soldiers but for the benefit of jobbers and members of Congress who by law turned two and sixpence into twenty shillings in their own pockets and that to the amount of millions of dollars The Yazoo land speculation and the soldiers speculation were ... to the ... compared to the Texas land and scrip speculation when the rejection of the treaty balked Under the bill justice will be done.—The scrip will be scaled and the ... grants of land annulled

To show the extent of these land grants and to expose the fraudulent statements in the treaty correspondence, that only sixty seven millions of acres has been granted Mr B produced and exhibited to all present a large pamphlet with a map attached to it, containing the claims of a single individual and all of which were asserted to be valid under the treaty They were grants derived from the ... of the Governments which had granted lands in Texas, to wit the states of Coahuila and Texas when united as one state which was the ... condition from 1820 to 1835 when Texas revolted

The grants were made to a Mr John Charles Beales, an Englishman married to a Mexican woman or to Mexicans and purchased by him and all obtained for little or no consideration—some in reward for introducing manufactures some on condition of introducing ... families—some on condition of introducing cattle—and some unconditionally *They are now all transferred to a ... of the United States, a Mr John Woodward of New York and amount to far more than the treaty ... and admits to have been granted by all the Governments which ever held Texas*

Mr B then enumerated these grants and pointed out their position on the map, the quantities in all cases not ascertainable because they extended from rivers to rivers from mountains to mountains and from parallels to parallels of latitude and longitude The first was a ... of forty five millions of acres, being a fraction less than the State of Kentucky ... Its northern latitude ... and from longitude ... degrees west from Greenwich to the ... and ... including the upper waters of the Colorado the Red river and the Arkansas Another ... degrees of latitude—from ... to ... degrees ... degrees west ... on the ... which ... it bound fifteen leagues A third extended from the Nueces to the Rio Grande ... between the ... latitude ... consisted of a set of ... ten ... leagues on the same ... of the Nueces and ... Mexican ... when ...

al grants in fee simple, the others were *impressario* grants, or upon the condition of settling a number of families on each The families had not been settled being prevented by the Indian wars and the Texas revolution, and the pamphlet sets out the decision of the Supreme Court of the United States in the case of the Arredondo claim, and the Clark claim in Florida, to show that in such cases (the performance of the condition becoming impossible by the act of God, of the public enemy, or the grantor) the condition becomes discharged, the grant is absolute, or the party may have time after the cessation of the obstacle to fulfil the terms Under these decisions and the terms of the late treaty all these grants amounting to seventy or eighty millions of acres, equal to three or four such States as Kentucky, are claimed to be valid, and that claim would go to the same court which decided the Arredondo and the Clark claims, for the treaty annulled none The Florida treaty of 1819 annulled the great grants to the Duke of Alagon, the Count Punon Rostro, and Don Diego Vargas, and they are not recognized by the Courts, but it omitted to name the claims of Arredondo and Clark and these have been confirmed by the Supreme Court of the United States, and it is notorious that the members of Congress became rich upon the shares of these grants The grants Mr B said, collected into the hands of Beales stood upon the same footing with that to Arredondo *They were not annulled by the late Texan treaty None were annulled by it* All the grants were confirmed which were good under the laws of Texas, and the laws of Texas so far as the right of property is concerned, are the laws of Spain and Mexico Coahuila and Texas, under which the right of property accrued

Mr B said the President's message communicating the treaty to the Senate was as untrue in relation to the granted and to the vacant lands in Texas as it was in every other particular Instead of two hundred millions of acres there were only eighty-four millions of acres in Texas proper, the rest was the one half in Tamaulipas Coahuila Chihuahua and New Mexico, and had been granted away centuries ago, and the other half in the wild country of the Camanches and the *Sierra Obscura* mountains *and must be fought for and bought from these Indians before it can be possessed, and will then* ... *covered by Beales* ... *and* ... *instead of thirty seven millions* ... *granted* ... *of Texas proper* ... and ... *the Indian country besides, was granted* ... In stead of 136 000 000 of acres of vacant land, there was no vacant land, for even the sterile mountains and barren prairies had been granted to speculators to sell to the United States and in Europe, and the assumption to pay the scrip debts of Texas in consideration of the vacant lands was a naked and fraudulent assumption to pay ten millions for nothing—and that to stock jobbers who had given two cents, and five cents, and seven cents in the ... for the claims, and whose agents were at Washington infesting the Capitol the President's house, and Department of State and doing all that was in their power to sustain the treaty and to pull down the Senators who despised them and their scrip The treaty was a fraud in not annulling the great grants made for considerations not fulfilled, and for not *scaling* the depreciated scrip debt. It was a fraud in these particulars, but this fraud created a ... vicious and clamorous interest for the treaty

Mr B said the philanthropic people of Missouri were mistaken in supposing that every body were like themselves, actuated by laudable motives in wanting Texas because it was geographically connected with the United States and essential to its political commercial, and social system There were other ... who wanted it for very different purposes—the disunionists for example, who wanted to use it for separating the slaveholding from the non slaveholding States, Presidential intriguers, who wanted it to make and unmake Presidential candidates and land speculators and stockjobbers who wanted it to enrich themselves

Throughout his speech Mr B presented it as the design of the Texas treaty *not to get Texas into the Union, but to get the southern States out of it* and showed that the whole treaty, and all the correspondence relating to it was studiously and artfully contrived for that purpose To pick a quarrel with Great Britain and ... *with the non slaveholding States on the subject of slavery was the open and undisguised object of the negotiation from the beginning to the ending* To array the slave holding against the non slaveholding half of the Union was the open and conquered effort To present the acquisition of Texas AS A SOUTHERN, SECTIONAL SLAVEHOLDING QUESTION WHOLLY DIRECTED TO THE EXTENSION, PERPETUATION AND PREDOMINANCE OF SLAVERY was his expressed and avowed object And after all this open effort to make the Texas question ... question the admission of the Texan States into the Union was to be submitted to the House of Representatives where there was a majority of forty six members upon the non slaveholding side What could all this be for except to have the Texan States refused admission and a pretext furnished the Southern States for secession All this was so well understood in South Carolina that the cry of "*Texas or disunion*" was raised in that quarter not only before the treaty was rejected, but before it was made It must never be forgotten, said Mr B that the treaty cannot admit new States The constitution grants that power to Congress The Texas treaty did not, and could not admit Texas as a State it only admitted it as a territory The question of admitting the States would have come on afterwards in Congress then the non admission being previously made sure of, then the secession of the North and the adhesion to Texas was to become the "rightful remedy"—Texas being in the Union as a *territory*, by the supreme law of the land, *a treaty*, her rejection by Congress would become a breach of that supreme law, and many under these circumstances would ... who would otherwise abhor secession

Mr B said he saw the first sign of this scheme of disunion during the session of Congress of 1842 and 43 He saw other signs of it the summer of 1843 and by the end of the last session of Congress the signs had become so portentous and clear that he was able to denounce it on the floor of the Senate His reply to McDuffie on Saturday the 15th of June, was the first public denunciation of this new treason against the Union He had denounced it long before to ... persons, and particularly at the ... session of Congress to Mr Aaron V Brown a Representative in Congress from Tennessee, who had ... obtained the Texas letter from General Jackson, and who seemed to be ... chargeable with some enterprise on this subject and who ... was ... in the ... at the ... that he did ... all that he had proclaimed at the ... He knew the treasonable design, and ... 'long before' ... He could not speak out ... were sufficiently developed to ... the ... tention and the credence of the ... the end of the session, this was ... Mr B

Let us give him a welcome worthy the Whig cause.

Proceedings of the Whig Mass Convention.

After this committee had reported, the President announced to the convention the Hon. George Evans, our own illustrious Senator than whose, no more honored name adorns the Councils of the nation—his appearance was greeted by the entire mass (which by the way was one of the largest audiences that ever convened within the boundaries of Penobscot,) with an universal acclaim of his worth and talents that made the welkin ring. A loud, long and repeated cheering told how firmly entrenched he was in the hearts of all—and that though Kennebec might claim him in locality, yet the whigs of Penobscot had in him a right in common and one which they were determined to proclaim. After the cheering had subsided, Mr. E. began and for three hours and three quarters he kept his audience as if enchained, as he laid open the principle of Government, the situation of the parties, and the downright and sterling virtues of good whig faith. To attempt to give anything like a fair idea of this most masterly effort is more than we shall attempt, in truth we have not a single note, for our intense interest prevented the gathering even of a stray fragment, so earnest were we for the whole. Memory may perhaps serve us, for getting the general idea of the speech, but for the power of the man, for the eloquence of truth as it falls from his lips in overpowering argument, you must see him and hear him for yourself.

His speech he commenced by showing the origin of Governments, its powers and duties, and the power of the people, as compared with Government abstractly; being supreme, they in fact were the Government, as from them emanated and by them is continued its power and vitality, and, in the executing of its principles, he adjured the people to select such agents as would secure their own good and the interest of the whole. His argument was, that the people should in this matter act upon their own convictions of right, and elect such men and such only, as would when elected, subserve truly the interests of those whose servants they are. He met the charge often made, and as often denied, that the Whigs were in favor of assuming the State debts, to which, with other false accusations, that are made against us, he gave a quietus which in this region will, we are assured, last through and be full beyond this campaign—he took up the doctrine of strict construction of constitutional powers about which there has been in these parts so much prating of late, and so strictly did he construe locofoco construction, and so manifestly expose and prove their many and gross inconsistencies upon this matter that we are inclined to think their *battery* on this matter is silenced for some time to come.

His exposition of the Tariff was indeed masterly, and his vindication of this measure against locofoco hypocritical cries of oppression, starvation, and taxation was received by the whole audience with an earnestness and solicitude, that clearly told that its truth went home to every heart, and of their intense interest in the continuance of this measure. It confirmed every one in the belief that this was the vital measure of the election, and sent them home impressed with the conviction that it was a matter of duty to support it. From the Tariff he passed to the subject of Texas, and made an appeal to the Abolitionists to avert this possible evil of annexation from the land. We wish every Abolitionist in the State could have heard him as he pointed out their *duty* and conclusively evidenced their responsibility in this matter. If one of them could have heard that argument and still in despite of it have resolved to vote for Birney, his reason must have been bound in iron fetters, and his judgment totally perverted. His vindication of Mr Clay too, from the poisoned and envenomed slanders and calumnies that are launched wholesale at him by these ingrates, who envy worth above their own, was truly sublime, and cordially do we thank him for it.

As we said, Mr Evans' speech, we cannot report. It was heard by very many of our citizens and its effect will be felt in every corner of the District. It was received by all with earnestness and joy, and the day they heard it will be a memorable *epoch* in the lives of many.

After Mr Evans concluded, Col McKenney, of Philadelphia was loudly called for. He came forward and addressed the people for a few minutes in his peculiar and piquant style of humor and illustration, and it was really a relief to the mind to listen to his happy hits and witticisms after following for so long the massive Evans. Mr McKenney spoke but a very short time, saying he would again in the evening address his fellow citizens in the City Hall—the Convention closed with a song from Mr Morgridge, a delegate from *Sangerville*. He said he was a manufacturer, that is, he made shingles in the forests of Maine and was in favor of protection. His song and himself, were received with hearty cheers.

The Whigs of the Convention separated with joyous and hearty satisfaction, and in succeeding years they will look upon this day and occasion as a real "mecca of the mind," and in their political warfare hereafter will date from it the impetus that established Old Penobscot upon an immovable basis, their own loved and cherished principles.

[CONCLUDED.]

Mechanics State Convention.

The Mechanics of Maine by delegates from the several associations and from some of those towns where there are no such societies, assembled in Convention at Portland Tuesday Aug. 20th, in the Methodist Chapel at nine o'clock A. M.

The Convention was called to order by Charles Baker of Portland, and Oliver Gerrish appointed chairman, and Charles Holden Secretary, for the purpose of effecting an organization.

A prayer was offered by Rev M. Dwight.

A Committee was appointed to examine credentials and reported delegates from some twenty towns.

The Convention was then organized by the choice of the following officers:

JOHN S. SAYWARD, of Bangor, *President.*
GEORGE BYRAM, of Gardiner, } *Vice Presidents.*
MOSES STILES, of Westbrook, }
JAMES E. FERNALD, of Portland, } *Secretaries.*
GEORGE A. STARR, of Thomaston, }

Several committees were appointed, reports made and the most of the forenoon session spent in an interesting debate on the subject of sustaining a periodical devoted to the interests of Maine.

In the afternoon an address was delivered by Abner R. Hallowell of Bangor, abounding in just sentiments, and received with the highest favor.

The Convention is not very numerous but an excellent spirit prevails.

Yours, S.

The Junius Tracts.

A list and price of these popular and effective Whig Documents will be found in an advertisement of to day, in another column. The Clay Clubs and Whigs of this State can be supplied from Boston in quick time, in such quantities as they may order, by the hundred or thousand. Some of them are more especially adapted to this State, though all are useful. Nos. 3 and 10 on the Tariff ought to be circulated among us by tens of thousands. "The Life of Henry Clay," "Democracy," "Labor and Capital," "the Test," and the "Annexation of Texas," are also very important. No political writer has put so much in a short space, or so well arranged his "st for effect on the masses, as "Junius."

[Reported for the Daily Whig & Courier.]

Proceedings of the Maine Annual Conference of the M. E. Church.

Eighth Day—Wednesday P. M., Aug. 21, 1844.

Conference opened at 2 o'clock with the usual religious services, by Wm. H. Pillsbury.

On motion, Voted that M. R. Hopkins be added to the committee on memoirs, in place of B. F. Tefft, excused at his own request.

As the report on Odd Fellowship was under consideration at the close of the morning session, conference proceeded to the consideration of that report, and after a protracted discussion the resolution of the report was under consideration substituted by the form of action adopted by the conference in reference to Masonry and Anti-Masonry, in 1829, involving a mutual agreement to refrain from agitating the subject pro or con: and while this was under consideration it was at length laid on the table for future consideration.

The President of the Conference introduced the Resolutions of the General Conference relative to the separation of the church in the South from that in the North, and after brief consideration of them, or more particularly the one contemplating an alteration in one of the Restrictive Rules, but after a brief consideration of the subject it was resolved to postpone the whole subject till the next session of this Conference.

Took up the resolution on Odd Fellowship, and after some further remarks by different brethren the following resolutions were unanimously adopted, viz:

1. *Resolved,* That we consider ourselves bound as ministers of the gospel of Christ to avoid all such questions and measures *for* or *against* Odd Fellowship as produce excitements and stir up strife among our people.

2. *Resolved,* That we will not attend or encourage meetings of Odd Fellows of any kind, and we affectionately invite all our ministers and members to do the same.

3. *Resolved,* That this Conference will consider any of its members who disregard these resolutions as offending against the authority of the Conference.

The remainder of the report of the committee on Odd Fellowship was then indefinitely postponed—after which the place of the session of the next Conference was fixed at Portland, and the time was announced by the Bishop to be the 15th of July, 1845.

Took up the case of Benj. Freeman, who had applied to this Conference for admission on trial and he was admitted. Conference closed with the benediction. M. HILL.

Ninth Day—Thursday, August 22, 1844.

Conference opened at eight o'clock with the usual religious services by I. Lord.

The nominating committee reported the following persons, from whom Trustees for the Newbury Biblical Institute, may be selected: M. Hill, S. Allen, D. Copeland, G. Webber, J. Hobart. Adopted.

Took up the case of B. F. Hilton, and after a full and careful investigation of the evidence in the case, and after listening to the pleadings on both sides, on motion it was voted that he be expelled from the church. The reporter does not regard the details of this case of sufficient public interest to report them.

The President of the Conference introduced a resolution from the New York Conference, in favor of the restoration of Mr Wesley's rule on total abstinence from all intoxicating liquors, to our discipline. Conference unanimously concurred in that resolution.

The committee on Slavery presented the following

REPORT.

The committee to whom was referred the subject of slavery, report the following resolutions, which were almost unanimously adopted.

1. *Resolved,* That we are, in the language of our most excellent discipline, "as much as ever convinced of the great evil of slavery," and are determined to use all christian and constitutional measures to get rid of the same.

2. *Resolved,* That we concur in the doings of the late General conference in the case of F. A. Harding, of the Baltimore Conference, in the virtual suspension of Bishop Andrews from the exercise of his Episcopal functions, and in rescinding the resolution against the testimony of colored persons in church trials, and rejoice to know that the M. E. Church in the acts of the said conference in these cases, stands out before the christian world worthy of her christian and very ancestry.

3. *Resolved,* That we consider it a cause of most fervent gratitude to almighty God, that by the interposition of his Providence, whatever may have been our former differences of feeling and sentiments, that we are now united in our opposition to slavery, and pray that, that union may be one and inseparable until slavery in our church and nation shall be numbered with the things which were, but are not.

4. *Resolved,* That whatever may be said by the south to the contrary notwithstanding, in their conventional assemblies, that we consider the doings of the majority of the General Conference in the cases referred to, righteous, not tyranical, and the proscription of Bishops Hedding, Waugh and Morris in said assemblies highly reprehensible.

5. *Resolved,* That whatever may be the unhallowed spirit manifested by some of our southern brethren against the doings of the northern portion of the church, that we still hope and ardently pray that under serious consideration of this great evil, they will join with us in efforts for its extirpation.

Conference called for statistics. The name of each circuit and station being called over in order, the members in society were received and other statistical details.

The committee on Sabbath Schools presented a report which was adopted.

The committee on Church Records presented a report, and while it was under consideration conference adjourned to meet at 2 o'clock P. M. M. HILL.

"City Greys."

To the Editor of the Whig and Courier.

By the "*Esprit de Corps*" evinced this season by this noble company, it has endeared itself to our citizens, and taken a rank which may be looked upon by other corps with envy.

The manner in which this corps have responded to the several invitations of political parties to serve them, has proved that the GREYS, not only know their duty, but will do it. And also, that they know their true position, that as a military body, they occupy neutral ground.

I noticed that the company was under the command of Lieut. Morrill, and judging from the able manner in which he acquitted himself, he will surely be promoted in due time. I was informed that he is a young officer, but by the exhibition, I should have taken him for a veteran.

May this fine company remember, that in "unity there is strength," and may every member ever soar above all minor questions, to that great and only true one, the honor and prosperity of the corps.

Missouri.

We think Benton and 'The Hards' have sustained themselves, though by a desperate fight and a close vote. Our St. Louis papers of the 10th do not give it up, but we think the 'Hards,' have it.

The House will be about equally divided, but the Senate contains some fifteen or twenty majority of Loco Focos holding over, and these will probably overrule in Joint Ballot, and re-elect Benton and Atcheson. But a day or two *may* put a different face on affairs.

Allen, 5,106 ahead of Edwards as far as heard from. The remainder of the State to be heard from gave, in 1840, 6,736 majority for Van Buren. [N. Y. Tribune.

Kentucky.

Returns from 86 counties give Owsley (Whig) a majority of 5619, which may be somewhat diminished by the remaining counties. The Whig majority on Lt. Governor is nearly twice as large.

Alabama.

The Mobile Advertiser of the 10th instant contains returns from 21 counties, in which the Whigs have gained eight and lost three members of Legislature. Net Whig gain, five.

☞ The men of Waldo hold a mass meeting at Belfast on Monday next. Gov. Kent, John C. Park, Geo. W. Crosby and others will be there, with sound arguments and convincing reasons.

NOTICE.

There will be a Campmeeting at Mill Creek in Orrington commencing Sept. 2d 1844.

Furs of all kinds Colored AND Dressed, and Bought and Sold.

E. Morse & Co. FURRIERS,

East End Kenduskeag Bridge, **One door from Low's City Market.**

WOULD respectfully inform the inhabitants of this city and vicinity, that they will richly Color and Dress all kinds of Furs, and warrant the color to remain fast, and preserve its brilliancy and elegance. Fox, Martin and Loup Cervier will be colored and dressed in a manner which cannot be excelled in Europe, notwithstanding it is reported that these skins cannot be dressed and colored in this country. E. M. & Co. will likewise restore the original color of old Fur Caps, thus making new from old. Buffalo Robes will be beautifully colored, and sleigh Robes manufactured.

Those who wish to inform themselves of E. M. & Co's proficiency in the coloring and dressing of Skins, are politely requested to call on Mr. DAVID HILL, to whom they have liberty to refer, and for whom they have done some service. They refer as above in consequence of the efforts of two individuals to injure them in their business.

As the summer and fall is a favorable time to do this work, on account of the weather it will be done much cheaper now than in the winter.

E. M. & Co. will pay the following prices for prime raw Furs, viz:

For Black and Maltese Cat Skins, 40 cts. pr skin.
" Loupcervier, $4.
" Muskrat, 20 cts.
" Sable $2.
" Mink $1.
" Grey Squirrel 10 cts.
" Wolf Skins $3.

P. S. E. M. & Co return thanks for the liberal encouragement which has been tendered them since their residence in Bangor, and would give notice that they are now manufact'g Fur Caps, & cloth do with Fur bands, latest styles; Muffs, Tippets, Boas, Fur Gloves, Buffalo Coats, Sleigh Robes, Moccasins, together with every article in the Fur line worn by Ladies and Gentlemen. Linen Glazed Caps constantly on hand. The above articles will be [illegible] exchanged for raw Furs.
